Growing conditions: Abundant winter rainfall starting in December lasted until April. Multiple small rain events led to all the moisture soaking into the vineyard soil profile. No frost and a mild spring produced a great fruit set. Judicious thinning coupled with a long warm summer led to an outstanding late harvest with excellent quality and yields.

Winemaking: The grapes were hand harvested, then crushed into a stainless fermentor. 24 hours later, the must was inoculated with D80 yeast then pumped over twice daily for 13 days then 7 days of maceration prior to pressing. After completion of malo-lactic fermentation, the Petit Verdot was aged in French and Hungarian oak for 24 months prior to bottling.
