Growing conditions: Another drought year with our total rainfall reaching only 50% of normal. The moderate crop coupled with an extreme warm spell in the last half of August led to a divided harvest, some in early September with the balance in late October and early November yielding a moderate harvest with excellent quality.

Winemaking: All of the grapes were hand harvested and then whole cluster pressed while still cool. The juice was chilled overnight prior to barreling to ferment in seasoned French oak barrels, this rose was aged on its lees passively prior to blending allowing bottling with minimal filtration.
