**Growing conditions:** Minimal winter rainfall until a wet March averted an extreme drought. No frost events but windy conditions during bloom led to a smaller fruit set. The lighter crop coupled with a long warm summer led to an outstanding earlier, small harvest with excellent quality.

**Winemaking:** After hand harvesting, the grapes were crushed then inoculated 24 hours later with D80 yeast and spent an average of 14 days on the skins prior to pressing, Different varietal lots were barrel aged separately for 20 months prior to selecting the final blend. Total barrel aging was 27 months in French and Hungarian oak barrels.

Victor Hugo Vineyards and Winery is one of Paso Robles' most exciting and innovative wineries.
